## EMC Anechoic Absorber Mobile Ferrite Board

MFB-60 – Representative Image

The MFB-60 is a wheeled board comprising 36 high performance ferrite absorbers with a durable protective perimeter edging for damage prevention. Each board is fitted with 4 x low profile, caster wheels and two eye rings for use with MFT-60 hook rod to aid easy movement of boards inside and outside the chamber. This system is ideal where floor arrangements and immunity patches are regularly required to be adjusted into different configurations.

### Product Features

- Applications:
  - ANSI C63.4
  - CISPR 16-1-4
  - IEC 61000-4-3
- Precision machined, 100mm x 100mm tiles
- 6.7mm Thickness
- Easily installed & removed for reuse
- 30 MHz - 1000 MHz
